WHAT IS RAPID TRANSFORMATIONAL THERAPY®?

RAPID TRANSFORMATIONAL THERAPY® IS AN AMAZING CONTEMPORARY THERAPY CREATED BY AWARD-WINNING THERAPIST, MARISA PEER.

It has been said that Marisa's true talent is making what seems complex, accessible and straightforward.

RTT® combines many well-regarded approaches of modern psychology, psychotherapy, hypnotherapy, NLP and CBT, into a unique and interesting modality.

Based on what works with real clients and tested over a three-decade-long career, RTT® has been proven to deliver outstanding results.

It works because rather than treating clients' presenting symptoms, RTT® uncovers and reframes the root cause of clients' issues. Marisa teaches that we are not born with negative beliefs and habits; we acquire them and through RTT® our clients can relinquish them.

WHAT IT MEANS TO BE CERTIFIED IN RTT®

The RTT® training provides you with a powerful set of tools so that you can make a profound difference to your clients' lives and your own.

Becoming certified in RTT® will give you the framework, and techniques to work with a multitude of clients and presenting issues. You will learn how to disrupt negative beliefs and habits, and install positive behaviors in clients.

RTT® goes deeper and gets results faster, which gives you immense career satisfaction and fulfillment. Clients tell us their issues are resolved more quickly than with traditional approaches. This sense of achievement gives you the confidence you need to succeed.

It is not just your clients who will benefit - this transformation begins with you. In transforming the lives of others, you will no doubt learn how to transform your own life and use the tools in a way that meets your own need for change.

Rapid Transformational Therapy® is making waves as a practical, revolutionary and life-changing therapy. Our evidence shows that RTT® is establishing fast results with some of the most complex issues.

STUDYING RTT®

The unique power of RTT® is that Marisa has made the seemingly complex study of the mind easy to understand. A range of theoretical approaches underpins the program but, unlike other training, the focus is active, practical, and experiential learning. As Marisa says, “You don’t learn to swim by reading a book.”

Whichever pathway you are working towards, RTT® enables you to work with individuals and groups, dealing with a broad range of issues and conditions, including anxiety, depression, addictions, and physical health problems.

As part of the program, you will receive detailed guidance on each tool and everything you need to set your clients up for success. You will also have 24/7 access to footage of real-life sessions, analysis, and several ready-made scripts to aid your learning.

The program provides amazing opportunities to network with colleagues, explore potential areas of interest, i.e.; working with children and teenagers to increase their self-esteem and confidence at school and in sports.

Whatever you choose, when you train in RTT® you are given outstanding support, including your own private Facebook group and webinars each month on RTT® specialist subjects.

“If you are concerned that you might lack experience, let me put your mind at rest.”

Many of our successful graduates had no prior therapy training, just a passion for helping others. Doctors, nurses, personal trainers, coaches, beauty therapists, city workers, teachers, marketers, police officers, small business owners, single parents, career-changers and retirees - all quickly learned to apply the tools with confidence and are now generating their own success, with a growing client base.
